AVIATION CONCEPTS INC WELCOMES NEW CHALLENGER 605 TO ITS CHARTER FLEET

Aviation Concepts (ACI) is pleased to announce the addition of a brand-new Challenger 605 (CL605) to its charter fleet. The CL605 is currently operated, managed and maintained by ACI and has been certified by the FAA for charter under the company's Air Operating Certificate (HFQA636K). ACI is the one of most experienced charter operators in the region, and features ARG/US Platinum rating.

ACI provides professional consulting services to the aircraft buyers throughout every aspect of the acquisition process. ACI's sales team can provide historical market summaries, model comparisons, operating cost models, assistance with the negotiation of price and purchasing terms, interior/exterior completion assistance, assistance regulatory compliance, insurance and administration coordination. ACI is your partner from the pre-delivery process to the certification, specification verification, inspection, acceptance flight and delivery of the aircraft.

The CL605 features enhanced LED cabin, accent lighting, ergonomic leather armchairs, and a four-seat conference area at the rear of the aircraft. The aircraft features the latest in advanced digital technology for onboard communications and in-flight entertainment, including satellite radio, DIRECTV, high-speed Internet connectivity and audio/video-on-demand. Passengers can access these services through multiple touch-screens and fully integrated control panels that are intuitive and within arm's length. A spacious walk-in baggage compartment is easily accessible in-flight and offers plenty of room for all your personal belongings. The CL605 can accommodate up to 11 passengers, has a range of 4,045 nautical miles, and can reach a maximum operating speed of Mach.82 at altitudes up to 41,000 feet.

Our professional and multilingual aircraft scheduling team available 24/7 to provide you with a prompt charter quote, process flight requests and prepare all of the necessary permits and in-flight catering requirements. Aviation Concepts' can be reached on +63 2 856 3590, +1 671 477 0179 or via e-mail e-mail at charter@flyaci.com.
