**AVIATION CONCEPTS INC (ACI) TO ADD GULFSTREAM GV FOR GLOBAL CHARTER**

Guam, Asia Pacific – ACI, an international provider of private jet solutions, announced that it just adds a Gulfstream GV to Worldwide & Asia Pacific management and charter fleet, effective August 1<sup>st</sup>, 2009.

The Gulfstream GV aircraft has been fully managed by ACI. In addition, ACI has received U.S. Federal Aviation Administration (FAA) and Department of Transportation (DOT) approval to operate a Gulfstream GV under the FAA Part 135 regulations for both domestic and international charter travel.

The Gulfstream GV will be stationed in Guam, Asia Pacific region. The cabin offers spacious space for 14 passengers and has an endurance of close to 13 hours or more. For more information and pictures, please visit <http://www.aviationconcepts.aero/gulfstream-v.html>

“With this approval, we are able to offer this long range aircraft to charter customers who require more than 11 seats (up to 14 passengers), while our current long range charter fleet, Global Express can accommodate 10 passengers at most,” says Yohei Sakurai, vice president of ACI’s charter sales.

ACI’s management services provide aircraft owners with one-stop tailor-made solutions developed to suit their needs. It includes 24/7 trip support services (flight planning and scheduling), flight crew dispatching, maintenance services as well as discounted insurance, fuel and professional accounting services.

**About Aviation Concepts Inc (ACI)**

Headquartered in Guam in our 50,000-square-foot hangar facility, we are strategically located within hours of most major Asian capitals. Our operational reach is global and we have worldwide flight approval, including all oceans and polar areas. Since we commenced operations in 1996, we have managed and operated aircraft ranging from a Falcon 50/900, Gulfstream IV/V/550 and Challenger 604, to the Global Express and Boeing Business Jet, maintaining and operating them to the highest industry standards for safety, maintenance, client service and operational excellence. At Aviation Concepts, we are committed to providing superior business aviation services and solutions.
