**PRESS RELEASE****IS-BAO CERTIFIES AVIATION CONCEPTS FOR EFFECTIVENESS OF SAFETY,
OPERATIONAL CONTROLS AND MANAGEMENT SYSTEMS**

Subic Bay, Philippines, May 2011 --- Aviation Concepts, Asia's premier private jet management, charter and maintenance company was awarded a Certificate of Registration for the successful implementation of the International Standard for Business Aircraft Operations (IS-BAO).

International Business Aviation Council (IS-BAO) certification is a code of best practices designed to help flight departments and charter operators worldwide achieve a high level of safety and professionalism. Aviation Concepts, with its dedication for excellence, successfully met the standards set by this business aviation governing body.

"With the knowledge that our operational discipline exceeds the standards of aviation governing bodies, this certification is a critical addition to our competitive advantage which will be instrumental in highly motivating our team of professionals to provide effective and efficient services to our clients." Elsie Quenga, VP for Operations, Aviation Concepts.

Elsie adds, *"In compliance to the IS-BAO certification, Aviation Concepts developed an approved and robust Safety Management System and protocols for operating, training, and maintenance that are strictly implemented for the company's entire operations."*
