

Aviation Concepts Business Jet Charters

Overview

Business Jet Charter services and solutions by Aviation Concepts offer a convergence of top-notch competencies that is unique anywhere in Asia: U.S.-Federal Aviation Administration 135 Charter certification for quality, training and safety standards; integrated business aviation financing, planning and management; global operational capabilities; worldwide flight approval; intimate knowledge of cabin interior design and customization; a state-of-the-art international scheduling center; satellite offices throughout Asia; multi-lingual flight crews; and the industry's most brilliant long-range jets. For these reasons, the Company enjoys particular success with those clients who expect and receive exceptional quality, service and technical expertise.

ASIA-FOCUSED, GLOBALLY-CAPABLE

All across Asia, Aviation Concepts is unmatched for its ability to deliver global operational reach and worldwide flight approval including all oceans and polar areas. Crew have flown to every continent in the world and over 90 different countries. The Company is recognized throughout the aviation trade as being among the world's most experienced in long-range international travel.

In the region, the Company operates thirteen satellite offices, two hangars, and one international scheduling center, and it is an official agent and member of the world's largest international ground handling service, UVGlobal.

Aviation Concept is committed to continuous expansion of its business aviation infrastructure throughout Asia. The company aggressively evaluates new geographic locations for enhanced client service and support.

CREW EXPERIENCE & CREDENTIALS

Aviation Concept's pilots and crew have achieved the industry's most difficult flight and safety training and certification by the U.S. Federal Aviation Administration. They have flown worldwide, including government-restricted areas. All crewmembers commit to recurrent training cycles, and pilots undertake simulator training every six months. In step with its diverse Asia-Pacific market, all Aviation Concepts flight teams are multilingual and fluent in regional customs, etiquettes and regulations. Flight attendants have managed highly discreet, sophisticated, client-tailored hospitality and VIP corporate services for world leaders, Fortune 500 executives, royalty and Hollywood celebrities.

COMMITMENT TO SAFETY

Aviation Concepts, Inc. possesses a U.S. Air Carrier Certificate authorized and operated under the guidance of the Federal Aviation Administration (FAA); Part 135. This certifies that the Company complies with the highest safety and security monitoring standards governing business flight today. To comply with FAA certification, Aviation Concepts has developed operating, training, and maintenance manuals that strictly control the safety of all flight operations.

In addition, Aviation Concepts, Inc. is certified by the United States Department of Transportation (USDOT) as compliant with the Anti-Drug and Alcohol Misuse Prevention Program. As such, all employees in designated safety-sensitive positions are subject to drug and alcohol testing in accordance with USDOT guidelines and regulations.

Aviation Concepts, Inc. also complies with the United States Transportation Security Administration (TSA) Twelve-Five Standard Security and Private Charter

Standard Security programs. These programs specify strict guidelines for verifying passenger and crew identity, screening passengers and baggage for potential hazards, and dealing with imminent or potential security threats.

24/7 INTERNATIONAL AIRCRAFT SCHEDULING CENTER

For prompt, efficient response to inquiries 24 hours per day, 7 days per week, 365 days a year, Aviation Concepts operates an international aircraft scheduling Center based in Manila, Philippines in conjunction with Universal Weather and Aviation, Inc., a recognized leader in trip support. Schedulers are equipped with the latest technology and the necessary resources to plan trips using the safest and most cost effective itineraries. The Center offers complete travel and flight management services, including charter brokerage, trip planning, landing permit applications, over-flight permits, aircraft and crew provisioning, coordination with fixed-based operators worldwide, handling services, ground transportation, catering, hotel arrangements, and all requests for customized in-flight and destination-based accommodations.

FLEET VERSATILITY & JET CABIN CUSTOMIZATION

Aviation Concepts' private fleet and worldwide network of charter sources together deliver exceptional versatility and a diverse range of custom cabin appointments and design.

- The fleet includes two (2) Global Express, each fitting up to four (4) crew & nine (9) to 10 passengers. These high-performance, intercontinental aircraft are the fastest in business jets and can carry from two to four flight crew and eight to 19 passengers. They can fly for 13 hours nonstop at altitudes of up to 51,000 feet; 5,450 nautical miles nonstop at Mach 0.87;

6,150 nautical miles nonstop at Mach 0.85; and 6,500 nautical miles nonstop at Mach 0.82 -- the equivalent of Tokyo to New York or Moscow to Los Angeles, nonstop.

- The Company maintains immediate access to a full range of regional, intercontinental, or global jets via FAA-certified jet charters worldwide.
- The team brings over 20 years of experience in the design, build-out and maintenance of custom private jet cabins to suit business, entertainment and relaxation requirements, making Aviation Concepts eminently qualified to recommend the proper interior fit for personalized flight requirements.

REVENUE OPPORTUNITIES IN BUSINESS CHARTERS

Aviation Concepts also consults with business jet owners seeking enhanced revenue opportunities through charter sales. The Company's business aviation consultancy offers full-spectrum support, including aircraft feasibility analysis, charter operations management, crew hiring and training, and aircraft financing.
